

Álvaro Herrero Couto

FrontEnd developer

+34 620332121

alvaroherrerodev@gmail.com

Linkedin

Senior software developer focused on Frontend architecture with Angular.

WORK EXPERIENCE

Ancient Gaming

Frontend Tech Lead Mar 2020 - Present

Development of a highly interactive and reactive multi-brand app using Angular ecosystem.

As Tech Lead I promoted best practices like smart/dumb component architecture, reactive state management (NgRx and component-store), efficient CSS code sharing, testing and keeping an "tech debt prevention" mindset when dealing with any task.

Also gave support / formation to developers and did interviews for new members.

Freelance

Software Developer Oct 2015 - Sept 2021

Freelance frontend/mobile developer for different projects using mainly Angular and Ionic frameworks. Backend development with Node and Nest.

I did around 20 projects, both greenfield and evolutes for in-progress ones.

Worked for clients such as Santander Global Tech, Avalon Technologies, Sopra Steria, Ancient Gaming, Lis Solutions, S&M Services, Refinería Web, Informage Studios, Kerala Software...

Herrero Games

Videogame developer Jan 2013 - Mar 2020

What started as a hobby became a successful catalog of games on Steam, Nintendo Switch, Wii U and mobile.

Innovaciones Tecnológicas Congressuales

Full Stack developer Oct 2014 - Oct 2016

Mobile app developmet for congresses and events using Ionic. Web apps and backend development using Angular.js and Php + Yii2.

Incentro

Frontend developer Apr 2014 - Oct 2014

Javascript development for e-learning project. SDL Xopus implementation for educational book authoring project: Javascript, XML, XSD, XSL...

Cadena SER

Broadcast technician Mar 2005 - Oct 2013

Sound control/post-production, and computer maintenance.
