PROFILE

Results-driven Software Developer with 6+ years of experience specializing in Java and Spring technologies. Proven ability to work on robust and scalable solutions for diverse projects. Proficient in creating RESTful APIs and microservices, with a good understanding of software architecture and design patterns. Also, competent with Angular, React, Node.js, PHP and PL/SQL, plus knowledge on AWS services like ECR, Clusters, ECS, EC2, S3, Amplify, among others required to deploy applications in cloud. Demonstrates strong problem-solving skills and a commitment to delivering high-quality code.

SKILLS

Java, Spring, Spring Boot, AWS, PL/SQL, Oracle, React, Angular, Node.js, PHP, Jenkins, Git, Bitbucket

WORK EXPERIENCE

Full Stack Software Developer | Tooloes

Sep 2023 to Mar 2024

- Create new functionalities in existing applications, both on front-end with React and on back-end with Node.js.
- Deploy applications on AWS, employing containers for efficient management of back-end components and utilizing AWS Amplify for simplified deployment of front-end.

Senior Applications Management Engineer | Endava SAS

Nov 2021 to Aug 2023

- Developed workarounds and enhancements for client applications (Java 8/11, Spring Boot, PostgreSQL, Microservices, Angular, JUnit and Mockito).
- Conducted thorough investigations into issues at level 3, utilizing advanced technical expertise to diagnose and resolve complex problems efficiently.
- Applied industry-leading tools such as Jenkins, Jira, Git, Bitbucket, among others on a daily basis.

Software Engineer Specialist | Scotiabank

Jul 2020 to Nov 2021

- Provided expert development and support for batch processes on the Investment Platform, leveraging detailed knowledge of Unix and PL/SQL to ensure smooth and reliable execution of critical processes.
- Improved and automated existing bash processes to enhance efficiency, reduce manual effort and minimize errors.

Developer | TATA Consultancy Services Colombia

Jun 2013 to Jul 2020

- Constructed different objects in Oracle PL/SQL (Packages, Procedures, Functions, Triggers, Jobs, etc.) and Oracle APEX.
- Designed and developed backend and frontend Java applications running on Weblogic as Application Server.
- Built strong SQL queries on Oracle databases with long data.
- Built Linux shells scripts to automate manual processes and improved execution time.

EDUCATION & QUALIFICATIONS

Universidad Cooperativa de Colombia - Bachelor's degree Systems Engineering

Jan 2010 – Apr 2016

ADDITIONAL INFORMATION

Languages – English; Spanish.
