

Ramiro Vargas

Bogota Colombia | +57 3142250888 | ramiro.vargassalas@gmail.com

Objective

• Software Engineer with experience in Java, Spring boot, Spring, Go, Javascript (Angular , Node.js), AWS , Azure structuring scalable web applications from the start, re-implementing legacy systems, and integrating third-party services. Expertise with agencies and companies in the US and local companies in Colombia. Expertise building APIs and websites with Spring boot Framework. Familiar with automation strategies and quality assurance standards. Building infrastructure as a service project with CloudFormation. Setting up a fault-tolerant, scalable hosting environment using Amazon Web Services EC2, Lambda, Container services (ECS) container service. Using CentOS / Debian Linux.

Education

BACHELOR OF SCIENCE | 2017 | ESCUELA COLOMBIANA DE INGENIERÍA
MASTER'S DEGREE | 2021 | UNIVERSIDAD DE LOS ANDES | SOFTWARE ENGINEER

Experience

JAVA DEVELOPER | LINKTIC | JULY 2023 - PRESENT

- Understanding the requirements of the clients and the architectural team to create solutions for the customer
- In charge of implementing rest APIS in Java using Spring boot framework for the management of Front-end information, third-party resources, deployed to Custom servers or Cloud Functions using AWS
- Testing with Mockito and Sonarqube for code coverage
- In charge of developing, tested, and debugged software tools utilized by clients.

JAVA DEVELOPER | CAFETO | MARCH 2021 - JULY 2023

- In charge of implementing rest APIS in Java using Spring boot framework for the management of Front-end information, third party resources, deployed to Custom servers or Cloud Functions using AWS and Azure.
- Testing with Mockito and Sonarqube for code coverage
- In charge of developing, testing, and debugging software tools utilized by clients.

JAVA DEVELOPER | MASIV | NOVEMBER 2019 - MARCH 2021

- In charge of implementing rest APIS in Java using Spring boot framework for managing Front-end information, third-party resources, deployed to Custom servers or Cloud Functions using AWS.
- Using container services (ECS) to deploy our microservices.

FULLSTACK DEVELOPER | SOPHOS | JUNE 2019 - NOVEMBER 2019

- In charge of implementing the rest APIS in Java using Spring boot and using Angular 8 for Front-end
- Testing with Mockito and Sonarqube for code coverage
- Working with a bank in Colombia called Colpatria

JUNIOR JAVA DEVELOPER | BELATRIX | JUNE 2018 - JUNE 2019

- In charge of implementing rest APIS in Java using Spring boot framework for the management of Front-end information, third-party resources, deployed to Custom servers or Cloud Functions.
- Working with companies in the US with scrum methodology

INTERNSHIP | IBM | JANUARY 2017 - DECEMBER 2017

- In charge of implementing rest APIS using Node Js framework for the management of Front-end information, third party resources, deployed to Custom servers or Cloud Functions
- In charge of developing, testing, and debugging software tools utilized by internal customers
