About

Computer and system engineer, software engineering specialist, with 12 years of experience in IT areas, with focus in software development and architecture on different languages and platforms, oriented to maintain a vanguard knowledge with enthusiasm to the constantly upgrading and learning for the new technologies of the current industry.

Technical leading and participation on software development projects on agile frameworks and methodologies for the enterprise environments, knowledge in programming languages backend and frontend, especially in OOP and AOP, microservices architectures and OClud - OnPremise infrastructures, SQL - NoSQL tools and Database engines.

Experience

Senior Software Engineer

Mill5 Colombia
Bogotá DC - Remote
Agosto 2022 - November 2022

Perform microservices development and extensibility, backend components development, solutions design for deployment web services to retail platforms, analysis and resolution of issues and bugs.

The following technologies and tools were used in the projects:

- Java (EE, SE8 - 15)
- Spring Boot Framework, RESTful Webservices
- GraphQL
- Buildkite, Jenkins.
- Git, Github, Git bash
- Apache Maven, Gradle
- DGS Framework
- Junit, Mockito
- Kotlin

Software Engineer

EPAM Systems Colombia
Bogotá DC - Remote
August 2021 - August 2022

Perform microservices development and extensibility, backend components development and maintaining of frontend components, solutions design for deploy of software tools to the tourism and pharmaceutical sector, analysis and resolution of issues and bugs.

The following technologies and tools were used in the projects:

- Java (EE, SE8 - 15)
- Spring Boot Java Framework, RESTful Webservices,
- DevOps CI/CD
- Docker, Kubernetes
- AWS S3, EC2, AWS-CLI, DynamoDB, SQS.
- Git, Gitlab, Git bash

Technical Leader

Cognicase Management
Consulting
Bogotá DC
April 2021 - August 2021

- Apache Maven, Gradle
- Snowflake DB
- RabbitMQ

Perform microservices development and extensibility, backend components development and maintaining of frontend components, solutions design for deploy of software tools and integration of data with partners and financial products, analysis and resolution of issues and bugs.

The following technologies and tools were used in the projects:

- Java (EE, SE8 - 15)
- Spring Boot Java Framework, RESTful Webservices, Swagger API
- Jenkins - DevOps CI/CD - DevSecOps
- Red Hat Openshift Container Platform
- Docker, Kubernetes
- AWS S3, Kinesis, Athena, EC2, AWS-CLI
- Git, Bitbucket, SourceTree
- Apache Maven, Artifactory
- Angular 8, Javascript, Typescript
- MongoDB, PostgreSQL

Senior Developer

Grupo Cinte Colombia
Bogotá DC
October 2019 - April 2021

Microservices development, frontend components development, automation of data integration processes for analytics and statistics

The following technologies and tools were used in the projects:

- Java (EE, SE8 - 12)
- Spring Boot Java Framework, RESTful Webservices, Swagger API
- Jenkins - DevOps CI/CD - DevSecOps
- Red Hat Openshift Container Platform
- Docker, Kubernetes
- AWS S3, Kinesis, Athena, EC2, AWS-CLI
- Git, Bitbucket, SourceTree
- Apache Maven, Artifactory
- Angular 8, Javascript, Typescript
- MongoDB, PostgreSQL

Senior software Engineer

Capgemini SAS
Bogotá DC
January/2019 - October/2019

Microservices development, client webservices development, frontend applications development, backend and database development.

The following technologies and tools were used in the projects:

- Java (EE, SE7-8).
- Frameworks Backend (Spring MVC, Spring Boot, JPA, Hibernate)
- Frameworks FrontEnd (JSF-Primefaces, JQuery)
- SOAP Webservices, JAX-WS, Axis2
- RESTful Webservices Spring Boot
- PL/SQL Developer, Oracle SQL Developer.
- Gitlab, Maven, Artifactory, Jenkins.
- Apache Tomcat, JDBC Realms.
- CVS Tortoise

Development Analyst

La Equidad Seguros OC
Bogotá DC
March/2016 - January/2019

- SOAPUI, Postman
- Webservices development, client webservices development, frontend applications development, backend and database development.

The following technologies and tools were used in the projects:

- Java (EE, SE 7-8).
- Frameworks Java (JSF, Primefaces, Spring MVC, Hibernate, JPA, EJB, JAXWS,
- Axis2, Apache CXF).
- Otros Framework (JQUERY, HTML5, PL/SQL).
- PL/SQL Developer.
- SOAPUI, Postman.
- Github.
- Maven
- Oracle SQL Developer.
- IBM Websphere Aplication Server.
- Apache Tomcat, Glassfish server.
- SQL SERVER 2016 R2.

Consultant IT - Solutions Analyst

Everis Colombia SA
Bogotá DC
October/2013 - march/2016

Webservices development, client webservices development, SOA BPM process development.

The following technologies and tools were used in the projects:

- WebMethods Software AG Designer 8
- Java (EE, SE, JSF).
- SOAPUI 4 (Herramienta de consumo de Servicios Web).
- IBM FileNet P8 (CE, PE, Record Manager, Workplace XT).
- SVN
- Oracle SQL Developer (Para consultas en BD).
- Java (Eclipse, JPA, JQUERY, EJBs).
- IBM FileNet P8 (CE, PE, Record Manager, Workplace XT).
- IBM Websphere Aplication Server 7.
- SQL SERVER 2008 R2.

Applications and Database Developer

Agencia Logística de las Fuerzas Militares
Bogotá DC
Sept./2009 - october-2013

Web applications development and support, relational database development and administration.

The following technologies and tools were used in the projects:

- Java (EE, SE, JSP, JSF).
- PHP
- Oracle 9g
- SQL Server 2008 R2
- MySQL server
- PostgreSQL
- Apache Tomcat, Xampp

Education

Software engineering specialist

Universidad Antonio Nariño
Bogotá DC

Postgraduate oriented to software development and architecture.

2019

Computer engineer

Politécnico Grancolombiano
Bogotá DC
2015

College degree

Informatic technical

Corporación Universitaria Minuto
de Dios
Bogotá DC
2010

Technical degree in software development
