### **PROFESSIONAL PROFILE**

A highly skilled and dedicated Front End Developer with over 9 years of experience in designing and implementing sophisticated web applications. As a Systems Engineer, I have consistently demonstrated a strong commitment to leveraging technology to deliver innovative and effective digital solutions that align with client needs and business objectives. My extensive experience in leadership roles has honed my ability to coordinate teams effectively, guiding projects from conception to deployment while fostering a collaborative and productive work environment.

I possess advanced technical skills in modern web development technologies, including JavaScript, ReactJS, Angular, TypeScript, NextJs, VueJS, StencilJS, HTML, and CSS. My proficiency extends to various JavaScript frameworks and libraries, such as Bootstrap, Material UI, web components, allowing me to create responsive and visually appealing user interfaces that enhance user experience. I am well-versed in cutting-edge concepts such as micro frontend architecture and atomic design principles, which enable the development of modular and maintainable applications.

I have a proven ability to tackle high-complexity projects, focusing on scalable solutions that prioritize both code quality and performance. My approach involves implementing best practices in front-end development, ensuring that the products I develop are not only functional but also optimized for future growth and adaptability.

In addition to my technical expertise, I bring exceptional soft skills, including effective communication, problem-solving, and teamwork. I am passionate about mentoring and supporting team members to maximize their potential, while also remaining committed to my professional growth. My goal is to contribute to the success of projects by aligning technology with strategic business goals and delivering exceptional results for clients.

### **SKILLS**

I have high knowledge in front end development technologies such as HTML5, CSS3, javascript, React Js, Vue JS, Angular, NextJs, StencilJs, Storybook, TypeScript, GIT, SASS, BEM, bootstrap, drupal, wordpress, AEM, responsive design, JQuery, gulp, web components, atomic design, scrum methodology, CI/CD

I have also developed in positions of technical leadership and innovation of digital transformation processes.

## **WORK EXPERIENCE**

### **Globant, Bogotá**
