
VICTOR PIETRO REIS

Londrina - PR Brazil ♦ +5543996428023 ♦ victor_pietro@hotmail.com

SKILLS

- Java / Spring Boot / Spring Cloud
- Clean code / Design Patterns / SOLID
- JUnit / Mockito / Rest Assured / Cucumber / Cypress
- Hibernate / JOOQ / JPQL
- PostgreSQL / Oracle / ElasticSearch
- TDD / DDD / BDD
- Docker / GitLab CI/CD
- AWS / CloudFormation
- Angular / Typescript
- Kafka / RabbitMQ

WORK HISTORY

Back End Developer, 06/2022 - Current

DevRank – Florida - United States (Remote)

- Used WSL2 (Linux) and Docker to encapsulate and run application during development
- Improved search feature by implementing custom API with Elasticsearch integration, decreasing search time by 30%
- Troubleshoot and tested software and debugged to clean up code and improve efficiency.
- Wrote unit tests to evaluate high code coverage.

Software Engineer, 07/2021 - 06/2022

Jalasoft – Cochabamba - Bolivia(Remote)

- Produced filtering feature on application that generates more than \$1M+ annually.
- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- Tested methodology with writing and execution of test plans, debugging and testing scripts and tools.
- Collaborated with clients to define solution requirements.

Java Developer, 08/2019 - 05/2021

MyOrg – Londrina - PR

- Pioneered implementation of agile development method; participating and contributing in daily scrum meetings, also using JIRA to organize sprints. This led team improving their performance during pandemic
- Spearheaded implementation of OAuth2 authentication to application
- Established high standard for code review ensuring clean and well-structured code

- Organized workshop for five-member team clarifying SOLID principles with theory and hands-on exercises
- Mentored new team members with application patterns, refactoring techniques, good practices and testing structure
- Worked closely with production team on creating requirements for development of new features
- Defined application's testing processes, having operating accuracy of 98%
- Built databases and table structures for web applications.

EDUCATION

Post Graduation: Computer Engineering, Expected in 03/2024

FIAP - Sao Paulo - SP

Software Architecture

Post Graduation: Computer Software Engineering, 07/2021

Centro De Inovação VincIT - UNICIV - Londrina - PR

Software Engineering with emphasis in Quality and Software Testing

Graduation: Analysis And Development of Systems, 07/2019

UNOPAR - Universidade Norte Do Paraná - Araongas - PR
