

EUROPEAN CV FORMAT

PROFILE

Software engineer with ten years of experience in different kinds of companies like building materials, insurance, IT outsourcing, and software factories. Responsible, proactive, honest, enthusiastic, and committed person. Adaptability to the change, solving problems efficiently, and achieving the goals proposed by the company and workgroup.

My experience has allowed me to increase my abilities in all phases of the software development lifecycle like analysis, design, implementation, continuous integration, and continuous deployment. In addition, I have solid experience working with JAVA, Cloud, Microservices, Containerization, and DevOps. Strong knowledge using design and architectural patterns, OOP, TDD.

Good relations with colleagues and customers, ability to listen and explain my ideas clearly. I am always willing to learn new skills.
