EDUCATION

Bachelor's Degree in Software Engineering

Jan 2020 - Dec 2024

- Universidad Internacional de La Rioja en Colombia - UNIR
- Bogotá, CUN, CO

SKILLS

Technical

- Javascript
- Typescript
- React
- Angular
- Redux
- C#
- .NET
- MSSQL
- PostgreSQL
- Git
- Azure DevOps
- Docker
- Kubernetes
- AWS
- CI/CD

Interpersonal

- Responsibility
- Leadership
- Organizational capacity
- Adaptability
- Teamwork

Languages

- English
- Spanish

WORK EXPERIENCE

Imagemaker

Software Developer / Full-stack Developer

Bogotá, CUN, CO
Jun 2022 - Current

- Involved the end-to-end design and development of multiple enterprise-grade microservices and microfrontend applications within eCommerce and E-Invoicing. Implemented technologies including React, TypeScript, Angular, .NET, C#, Azure DevOps, AWS, PostgreSQL, etc.
- Development of scalable user interface components using React and TypeScript, and collaboration with the UI/UX team to deliver an engaging and seamless user experience.
- Implementation of business logic and data management on the backend using .NET, ensuring efficient and scalable operation.
- Configuration and management of cloud services using AWS (ECR, EKS, S3, CloudFront, RDS) to ensure secure and scalable storage, as well as efficient content distribution.
- Implementation of CI/CD pipelines using Azure DevOps, automating the build, testing, and deployment process for reliable continuous delivery.
- Maintained and enhanced enterprise-level applications using Angular and .NET, managing millions of transactions and large datasets for thousands of users across Latin America. Focused on optimizing performance, implementing new features, and improving overall system efficiency.

Hewtec - Very High Technology For World Sas

Software developer / Front-end developer

Bogotá, CUN, CO
May 2021 - Jun 2022

- Creation and maintenance of single-page applications (SPAs) targeted for government applications, adhering to security and accessibility standards.
- Design and development of modern and appealing user interfaces using technologies like React, Next.js, Bootstrap, MUI.
- Application of optimization techniques to ensure high performance and minimal loading times, enhancing the user experience.
- Implementation of responsive designs and functionalities to ensure that the application is accessible and functions properly on a variety of devices and screen sizes.
