### Experience

---

#### Wizeline / Lead Software Engineer

AUGUST 2023 - PRESENT, MEXICO

Technologies: React, Styled components, TypeScript, Vite, Jest, Storybook, Java.

I am working for a fintech client where the following achievements have been realized:

- As a frontend developer, I play a key role in enhancing the user interface, ensuring seamless financial transactions for users.
- I integrate Amplitude to facilitate tracking and analysis of user interactions, crucial for refining our financial tools.
- As a tech lead, I am spearheading the migration to update our platform using the latest version of Node and incorporating libraries like TypeScript.
- I collaborate closely with the design team to rigorously implement the platform's component design system documentation.

#### Nimble Gravity / Lead Software Engineer

AUGUST 2022 - AUGUST 2023, DENVER COLORADO

Technologies: React, Sass, TypeScript, NextJS, Jest, Storybook, GraphQL, Python.

I worked for a client in the health care area where the following achievements were attained:

- I was part of the accessibility team adding features to the website for users with disabilities
- I incorporated Amplitude, a tracking and analysis tool on the website to generate user behavior metrics and error detection
- I was part of the migration team to update the website to the latest version of Node as well as other libraries like typescript
- Worked with the design team to fully implement the website component design system documentation

### **Big Zeta / Sr. Frontend Developer**

OCTOBER 2021 - JULY 2022, PORTLAND OREGON

Technologies: React, Sass, Bootstrap, TypeScript, Jest, Storybook, GraphQL, Apollo, Python, PostgreSQL.

In my time at this company I worked on a B2B e-commerce platform from scratch where the following results were achieved:

- I created the design system for the components with its documentation
- I worked with the backend team migrating the REST API framework to GraphQL
- I was part of the site architecture planning to define the frontend technologies
- I worked on implementing web sockets reducing the cost of processing data queries

### **CBQA Solutions / Sr. Frontend Developer**

AUGUST 2019 - SEPTEMBER 2021, SAN FRANCISCO CALIFORNIA

Technologies: React, Redux, TypeScript, Jest, GraphQL, Apollo, Python, PostgreSQL.

During my time working at this company, I had the opportunity to work for a client, an education startup achieving the following:

- I worked for a startup with 100,000 active users.
- I worked with GraphQL to manage the payment processing area
- I worked unifying the design systems of the components for the website (React) and for the mobile application (React Native)
- I worked together with the backend team in the creation and update of endpoints

### **Blue Trail Software / Frontend Developer**

JANUARY 2018 - JULY 2019, SAN FRANCISCO CALIFORNIA

Technologies: React, Redux, JavaScript, Jest, NodeJS, PostgreSQL.

In this company I had the opportunity to work for a client in the health care area, where the following was done:

- I was part of an international team, managing 3 different time zones in America and Europe.
- I worked simultaneously in the backend and frontend areas, creating the base structure of the application.

### **Softtek / Frontend Developer**

JANUARY 2013 - DECEMBER 2017, MEXICO

Technologies: React, JavaScript, Jest, NodeJS, PostgreSQL.

Working in this consultancy I worked for a client in the fintech area developing the following:

- I was part of the PHP to React migration team
- I incorporated as part of a team the first integration of unit test to react components
- I worked in the payment transfer area of the website

### **Aquarelab / Web Developer**

JANUARY 2011 - DECEMBER 2012, MEXICO

Technologies: HTML, CSS, JavaScript.

In this advertising agency I had my first approach developing web pages for different clients

- creation of static web pages
- Maintenance and updating of websites to HTML 5 and CSS3

---

## **Education**

---

### **Technological University of Mexico / Degree Software Engineer**

JANUARY 2018 - MAY 2021, MEXICO

### **De La Salle University / Master's Degree Advertising**

SEPTEMBER 2012 - AUGUST 2014, MEXICO

### **De La Salle University / Degree Communication Sciences**

AUGUST 2008 - JULY 2012, MEXICO
