EXPERIENCE

LuizaLabs • Remote (Jun 2023 – present)

Magalu Ads Featured Products – Frontend Engineer (Vue + NestJS)

- Standardized design patterns and advocated for efficient and readable code paired with decoupled components, significantly improving code maintainability and ease of testing.

BairesDev LLC • Remote (Apr 2022 – Apr 2023)

Core Architecture Team – Frontend Engineer (Angular)

- Refactored and optimized core component libraries;
- Promoted the adoption of standards and tools such as ESLint and TailwindCSS;
- Mentored developers from other teams using the libraries.

Linnkr Inc. • Remote (Dec 2021 – Apr 2022)

Senior Frontend Software Engineer (Angular Developer)

- Developed a customizable database schema diagram platform for a CRM system;
- Applied best practices in Angular and TypeScript, ensuring clean, maintainable code.

Azion Technologies • Remote (Jun 2021 – Apr 2022)

Edge Orchestrator – Frontend Engineer (Vue + Fiber/Golang)

- Led the maintenance and enhancement of the Edge Orchestrator's Vue frontend;
- Proactively took on the BFF and API (Fiber) projects, originally outside of the frontend scope, to ensure seamless integration;
- Teamed up with frontend guild to maintain and test the in-house components library.

JOIT Solutions • Jundiaí, SP (Aug 2019 – Jun 2021)

Portal Vesta (Sequoia Log) – Technical Leader (Angular 9 + .NET Core + SQL Server)

- Supported developers and managed Gitlab PRs/pipelines for smooth workflows.

Osorno Analytics – Full-Stack Developer (Angular 6 + .NET Core + MySQL)

- Delivered impactful contributions across multiple projects, resulting in a specific request to focus exclusively on the project after just two weeks as a part-time collaborator;
- Effectively optimized queries for data aggregation and presentation and maintained constant exchanges with the Product Owner and UX/UI Designer to fine-tune our project.

Mobly Comércio Varejista • Itupeva, SP (Jul 2014 – Aug 2019)

BP Analyst / JavaScript + PHP Developer / WebExtensions Developer

- Transitioned from Customer Service Clerk to Business Process Analyst, focusing on technical development;
- Developed and maintained applications on AWS EC2 Ubuntu instances using Vanilla JavaScript, PHP, and MySQL;
- Designed and implemented a WebExtensions project utilized by over 100 employees, significantly enhancing CRM functionalities;
- Automated tasks using AutoHotkey and Excel+VBA, optimizing business processes and improving operational workflows.

Cultura Americana Idiomas • Jundiaí, SP (Mar 2013 – Dec 2013)

English as a Second Language Instructor

- Conducted targeted speaking classes for small groups, significantly improving students' English fluency and confidence;
- Managed and optimized listening activities, enhancing language acquisition;
- Authored educational materials and co-wrote an advanced English textbook, showcasing strong writing and editing skills;
- Cultivated cross-cultural communication abilities, facilitating collaboration with global teams in subsequent technical roles.

Mobly Comércio Varejista • Jundiaí, SP (Jul 2012 – Mar 2013)

Customer Service Analyst

- Provided B2C post-sales support;
- Highlighted several times as top performant employee.
