ABOUT ME

I'm a highly experienced Senior Front End Developer with 6 years of solid expertise in Angular, React.js, Node.js, AEM, GraphQL, StoryBook, and ChatGPT for efficient task deliveries. Passionate about continuous learning and staying up-to-date in Front End, web development, UX/UI design, and emerging technologies. Painting in oil and acrylic inspires me, enhancing my creative problem-solving approach. With a strong foundation, ongoing growth commitment, and the ability to merge creativity with technical expertise, I drive exceptional results in innovative projects.

RECENTLY EXPERIENCES

• **FullStack Developer** • Mobile Live • May 2023 - Currently.

Developed backend applications using Node.js and Frontend applications with Angular, implemented frontend architecture and best practices, conducted unit testing with Jest for both frontend and backend and implemented UI styles using SCSS.

Executed Agile methodologies (SCRUM) for project execution.

Stack: **Angular 14 to 17, JavaScript, HTML5, CSS, SASS, Node.js, Express, MongoDB, Jest, MEAN Stack.**

Clients: **CIBC - Canadian Imperial Bank of Commerce.**

• **Senior Front End Developer** • Critical Mass • June 2021 - May 2023.

Successfully migrated legacy apps to newer versions (Angular.js to Angular, AEM) while ensuring proper functionality. Developed React.js apps from scratch, achieving over 80% unit testing coverage. Evaluated scenarios for recycled components in different frameworks and determined CSS framework usage (CSS, SASS).

Stack: **React.js, Redux, Angular.js, Angular 12 to 14, HTML5, CSS, SASS, JavaScript, Java for AEM, Jest, Testing Library, Figma, StoryBook, ChatGPT.**

Clients: **CSPire, National Instruments, Scantron, NRG, Nissan, Infiniti.**

• **Front End Engineer** • Somo Global • January 2021 - June 2021.

Created atomic design components in Angular 8 with AEM backend for web apps across different countries, utilizing GraphQL to fetch specific information. Developed unit tests in Jest with over 90% coverage.

Stack: **Angular, HTML5, CSS, SASS, JavaScript, Jest, Next.js, Java for AEM, GraphQL Invision, StoryBook.**

Client: **Vanguard.**

• **Mid-Senior Developer** • MAS Global Consulting • May 2020 - December 2020.

Developed Angular 7 app with .NET Core and C# backend for hospitals, utilizing lung X-ray algorithm. Implemented .NET Core APIs and transformed them for Angular 8 forms in an Air Cooling project. Conducted unit tests in Jasmine with over 90% coverage.

Stack: **Angular, HTML5, CSS-SASS, JavaScript, Jasmine, NgRx, Invision, .NET Core.**

Clients: **Blue Eye Soft, Johnson Controls.**

• **Angular Developer** • Talos Digital S.A.S • November 2019 - March 2020.

Created and maintained Angular 8 components in a crowdfunding app for Australian real estate. Implemented new functionalities and utilized NgRx for improved state management, aiding in determining loan amounts for real estate projects. Conducted unit tests in Jasmine with over 80% coverage.

Stack: **Angular, NgRx, HTML5, CSS, LESS, JavaScript, Jasmine, Invision.**

Client: **Dealt.**

• **Front End Developer** • Quipux S.A.S • May 2018 - November 2019.

Experienced Front End Developer with expertise in UX/UI design and team leadership. Collaborated with UI/UX team to design interfaces for ongoing projects. **Led 2 Front End developers, 1 UX Designer, and 1 UI Designer.** Created/maintained Angular.js, Angular, Vue.js apps. Developed BEM-based LESS/SASS stylesheets. Proficient in Agile: SCRUM, KANBAN.

Stack: **Angular, Angular.js, HTML5, CSS, LESS, JavaScript, Adobe XD, Invision.**

Clients: **Alcaldía de Medellín, AQTr - Association québécoise des transports, Gobernación de Antioquia, Gobernación del Valle.**
