FRONT-END DEVELOPER SR | PRONTMED | São Paulo

December/2016 – May/2018

Technology company focused on developing an electronic medical record web application with more than 3 million medical care services rendered.

- Responsible for the Front-End development of application, from planning with the Product team until deployment in production.

- Worked with Agile methodology, such as Scrum.
- Developed new features in the web app, such as billing, and improved performance by reducing the amount of listeners (two way data binding).
- **Technologies used:** React, Less, Angular 1.x, Bootstrap, WordPress, Git/GitHub, Grunt

DEVELOPER | HOSPITAL ALEMÃO OSWALDO CRUZ | São Paulo

August/2016 – December/2016

Hospital established over 100 years ago, with many medical specialties and more than 1,000 employees.

- Responsible for the development of an internal web system for electronic medical records. Worked with Agile methodology, such as Scrum.
- Developed some system improvements and bug fixes.
- **Technologies used:** React, Bootstrap, gulp.js, Less, Mercurial, Node.js, React Native, RabbitMQ.

DATA ANALYTICS SENIOR CONSULTANT | ERNST & YOUNG (EY) | São Paulo

July/2014 – June/2016

Multinational company among the 4 biggest accounting firms in the world (Big 4).

- ETL – Extract, Transformation and Loading data. Procedures for data automatization.
- Technical leader, responsible for reviewing and creating dashboards, reports and queries.
- Worked in many different audit projects, over 40 in 4 months in the peak workload. My team had around 10 people to attend all projects, in each project, we collected the client's data, brought it to the company, imported it to the database (ETL) and created the reports/dashboards for the client. We had code review as a best practice, so when someone created the report/query I would review it and send it to the client.
- **Technologies used:** Tableau, SQL Server Database, SSIS, SSRS.

SYSTEM ANALYST | MICHAEL PAGE INTERNATIONAL | São Paulo

July/2011 – November/2012

One of the world's biggest companies specialized in recruiting, Michael Page belongs to the PageGroup, which operates in more than 30 countries.

- Successful ERP MS Dynamics AX implementation to the Latin America subsidiaries (Brazil, Mexico, Argentina, Chile and Colombia)
- Responsible for maintenance, improvements, integrations and Q&A to the ERP MS Dynamics AX in LATAM.
- **Technologies used:** MS SQL Server, ERP MS Dynamics AX, MS Integrations Services (SSIS), MS Reporting Services.
