Resume Summary

Senior Front End Developer with over 13 years of experience, specializing in UI Component Development, Responsive Web Design, and Code Refactoring. Adept in modern front-end technologies including Angular, TypeScript, and SCSS. Proven ability to enhance web application performance, lead successful migrations, and deliver high-impact features in diverse and dynamic environments. Committed to building scalable, high-performance web solutions that meet and exceed user expectations.

Professional Experience

Senior Front End Developer

Hello Insight, USA (100% Remote from Colombia) | April 2021 – Present

- **Feature Implementation & Management:** Led the design, development, and integration of new features for Hello Insight, a web application driving youth development. Successfully utilized AngularJS, Angular 8/17, JavaScript, TypeScript, and other front-end technologies to create responsive, high-performance interfaces.
- **Agile Development:** Played a key role in SCRUM-driven projects, boosting team efficiency and ensuring timely delivery of high-quality features.
- **Marketing Website Development:** Developed and maintained critical features for the company's marketing website using Vue.js, jQuery, and RESTful APIs, improving site performance by 20%.
- **Code Refactoring & Migration:** Directed the refactoring of common code into reusable components and led the migration from AngularJS to Angular 8/17, reducing technical debt and improving performance by 30%.

Senior Front End Developer

Ideaware CO, Barranquilla, Colombia | June 2018 – March 2021

- **Migration & Maintenance:** Spearheaded the migration of Bucket.io from AngularJS to React JS, maintaining the integrity and functionality of both versions during the transition.
- **Feature Development:** Engineered advanced features such as multi-step segmentation funnels, enhancing Bucket.io's capability for market segmentation and targeted marketing.

Front End Developer (Temporary)

Global Gaming Group, Tallinn, Estonia | May 2018 – June 2018

- **Website Development:** Developed and maintained a high-traffic marketing website for an online casino using HTML5, CSS3, and WordPress, collaborating effectively with international teams.

Front End Developer

Ideaware CO, Barranquilla, Colombia | Sept 2015 – March 2018

- **Web Application Development:** Created and maintained the Bucket.io application, a SaaS market segmentation tool using AngularJS, enabling marketers to create dynamic quizzes, assessments, and custom audiences.
- **Custom Theme Development:** Developed and deployed custom WordPress themes, translating unique designs into fully responsive and user-friendly websites, significantly boosting client satisfaction and engagement.

Front End Developer

El Heraldo CO, Barranquilla, Colombia | Feb 2015 – June 2015

- **Feature Development & Maintenance:** Improved user experience and site functionality for El Heraldo's web platform using Drupal 7, implementing responsive design and modern front-end practices.

Web Developer

Roliagroup SAS, Barranquilla, Colombia | Dec 2010 – Nov 2014

- **Website Development:** Developed and maintained corporate websites, integrating secure payment processing through PayU Latam API and ensuring high standards of performance and security.
-

Education

Bachelor's Degree in System Engineering

San Martin University, Puerto Colombia, Atlántico, 2011

Technical Skills

- **Languages & Frameworks:** HTML, CSS, SCSS, JavaScript (ES5/ES6), TypeScript, Angular (JS/8/17), jQuery
 - **Tools & Platforms:** Git, GitHub, NPM, WordPress (Theme Development), RESTful APIs, Bootstrap, Angular Material
 - **Methodologies:** SCRUM, Agile Development
