OBJECTIVES

To establish myself in a software development company where I can contribute to creating high-quality web applications using Java technologies.

JOB SUMMARY

I am a Senior Java Developer with extensive experience in the banking and telecommunications sectors. I have no specific preference for any particular industry and can adapt to various business domains. My expertise includes research and development of solutions using Java J2EE technology and other frameworks and tools, such as:

- **Frameworks:** Hibernate, Spring, Apache Camel, Microservices.
 - **Technologies:** HTML5, EJB, JavaScript, XML, UML, CSS3, AngularJS, JSP, Servlets, JPA, Web Services.
 - **Tools:** Git, SVN, Toad, Enterprise Architect.
 - **Application Servers:** Glassfish, WebSphere, WebLogic.
 - **Other:** Scrum, Axis, Struts, AWS, Jira, Bitbucket, JUnit, Jenkins.
-

PROFESSIONAL EXPERIENCE

Emergencias Salud

Java Senior Backend Developer
01/06/2019 – Present

- Developed solutions using Java 8 and Microservices for the health sector.
- Created an application allowing users to open a health account within 5 minutes via mobile or PC, verifying personal data and consuming internal supplier services.
- Utilized technologies: AWS, Jira, Spring Boot, Jenkins, Hibernate, Git, Scrum, JUnit, Maven, Java 8, Java 11.

Multifinanzas

Full Stack Developer
01/11/2017 – 01/06/2019

- Developed web applications for the banking sector with a team of six programmers.
- Implemented agile methodologies and continuous integration, focusing on high-quality software.
- Used Java 8, Spring, Hibernate, Angular 8, CSS3, REST, SOAP, Maven, Apache Camel, and more.

ErgoRenova

Java Web Developer

09/01/2017 – 31/08/2017

- Developed a web-based electronic billing system for electricity, water, and gas services.
- Focused on high availability and handling significant customer traffic.
- Worked with Java 7, Spring, Hibernate, Glassfish, Primefaces, and other technologies.

Hewlett Packard (HP)

Senior Consultant

14/09/2015 – 30/12/2016

- Developed web applications for telecommunications and telephony sectors.
- Created web-based user management platforms for manipulating telephone lines.
- Utilized Java 7, Spring, Hibernate, CSS3, SASS, Glassfish, Linux, Jira, and other tools.

IT Resources

Senior Consultant

18/02/2015 – 10/07/2015

- Developed a web application for managing traffic tickets using Java 6 and Primefaces.
- Focused on maintaining application quality and user experience.
- Used Jenkins, Spring, Hibernate, CSS3, and related tools.

Bitconsulting

Consultant

28/06/2013 – 28/11/2014

- Enhanced banking software solutions using J2EE, JSF, JSP, and other frameworks.
- Followed agile SCRUM methodologies.

Infogesa (Client: Banco Central de Venezuela)

QA Analyst III

17/01/2011 – 24/06/2013

- Conducted application analysis, defect logging, documentation, and functional testing.
- Focused on test case development and certification testing.

Soluziona

Junior Developer Analyst

09/12/2009 – 16/01/2011

- Developed Web Services for Movistar, involving software architecture research and solution development.
- Utilized Java J2EE, Spring 2.0, Struts 1.2, Axis, and WebLogic 8.

EDUCATION

- **Computer Engineering**
Universidad Alejandro de Humboldt, Venezuela
Graduated: 2013
 - **Systems Analysis (TSU)**
Instituto Universitario de Tecnología Industrial Rodolfo Loero Arismendi (I.U.T.I.R.L.A),
Venezuela
Graduated: 2005
-

CERTIFICATIONS AND COURSES

- **Developing Applications for the Java EE 6 Platform** (Oracle University, Venezuela, 2014, 40 hours)
 - **Java EE 6: Develop Web Components with Servlets & JSPs** (Oracle University, Venezuela, 2014, 40 hours)
 - **Java EE 6: Develop Web Applications with JSF** (Oracle University, Venezuela, 2014, 40 hours)
 - **Java EE 6: Develop Web Applications with JPA** (Oracle University, Venezuela, 2014, 40 hours)
 - **Java EE 6: Develop Web Applications with EJB** (Oracle University, Venezuela, 2014, 40 hours)
 - **HTML5 & CSS3** (Softtrain, Venezuela, 2013, 16 hours)
 - **Android Development** (Softtrain, Venezuela, 2013, 40 hours)
 - **Web Master** (Bellinsoft, Venezuela, 2009, 36 hours)
 - **JSP Development** (CENEAC, Venezuela, 2009, 20 hours)
 - **Java Programming** (Bellinsoft, Venezuela, 2009, 20 hours)
-

TECHNICAL SKILLS

- **Programming Languages:** Java (6, 7, 8, 11), JavaScript.
- **Frameworks & Libraries:** Spring (Boot, MVC), Hibernate, AngularJS, Primefaces.
- **Databases:** Oracle, MySQL.
- **Tools & Platforms:** AWS, Git, SVN, Jira, Jenkins, Maven, SOAPUI.
- **Methodologies:** Agile (Scrum), Test-Driven Development.
- **Web Technologies:** HTML5, CSS3, XML, REST, SOAP.
- **Application Servers:** Glassfish, WebSphere, WebLogic.
