

Matthew Seidel

Applying for: Full Stack Developer

☎ (+57) 3177960646 | ✉ matseiw@gmail.com | 💻 mattseidel | 🔗 LinkedIn

Summary

Full Stack Developer with over 5 years of experience in React, Node.js, and AWS. Skilled in building scalable applications, optimizing CI/CD pipelines, and collaborating in Agile and team-oriented environments. Focused on delivering innovative solutions and impactful user experiences.

Education

Universidad de Nariño	Colombia
Bachelor's in Software Engineering	2014 - 2018

Experience

Front-end Engineer	Publicis Global Delivery (PGD)	09/2023 - Present
<ul style="list-style-type: none">Designed and implemented scalable solutions using React, Node.js, and AWS.Participated in a paired programming environment, promoting best practices and team collaboration.Led the optimization of workflows and applications, improving performance and user experience.		
Software Developer	Unosquare	05/2022 - 09/2023
<ul style="list-style-type: none">Developed reusable components for web applications using React and Node.js.Implemented CI/CD pipelines with GitHub Actions, streamlining deployments and improving code quality.Collaborated in an Agile environment, continuously improving processes and team deliverables.		
Software Development Engineer	Siesa	05/2021 - 05/2022
<ul style="list-style-type: none">Designed and developed microservices on AWS, ensuring system scalability and performance.Built secure RESTful APIs and integrations with multiple services and applications.Promoted code reviews to maintain quality standards across the team.		
Software Engineer	Marmaris	10/2020 - 12/2020
<ul style="list-style-type: none">Built full-stack applications with React and Node.js, focusing on modularity and code reuse.Collaborated with cross-functional teams to ensure deliverables met business requirements.		
Software Engineer	Keppler	05/2020 - 10/2020
<ul style="list-style-type: none">Developed backend solutions on AWS using Docker containers for efficient deployments.Contributed to improving existing systems through code optimization and testing.		

Skills

Programming Languages: JavaScript, TypeScript, SQL
Frameworks and Libraries: React, Node.js, Express
Cloud Platforms: AWS (Lambda, S3, EC2)
Processes and Tools: GitHub, GitHub Actions, CI/CD Pipelines
Methodologies: Agile, paired programming
Languages: Spanish (native), English (B2+)

Certifications

- English Certificate (Advanced Level)
