ABSTRACT

Software engineer with + 16 years designing, developing and deploying mobile, web and desktop applications with .net.

I'm a passionate, professional, responsible person. I love software development and I'm a very committed person. I can lead developer teams and take the best decisions to finish the projects efficiently.

KNOWLEGE

Language

- Spanish
- English

Software

- Building Software architectures with Silverlight, ASP.Net, MVC, Winforms, javascript (Nodejs), and Angular.
- Create PBIs with TFS and Scrum (SAFE) methodology.
- SQL Server Development using TSQL and Stored Procedures.
- +15 Years developing with .net (C#)
- .Net with framework 2.0, 3.5, 4.0 , 4.5, 4.6, .net Core.
- Web applications with 3.0, ASP.Net, Angular.
- Embed reports in .net with Reporting Services.
- Building Software architectures with SOA con ASMX, WCF, OData y Rest.
- Developing using Telerik and Infragistics controls for ASP.Net, Silverlight, WPF and Angular.
- Source control management with GIT and TFS.
- Create azure architectures with Azure functions, Queue triggers, web apps, web jobs, SQL Azure, Storage technologies, front door, and other azure technologies.
- AWS basics with EC3, S3, RDS for SQL Server, redis on Linux.
- Hibrid Application development with Xamarin Forms, Xamarin Android, Xamarin iOS and Ionic.
- Unit testing with moq and xunit for .net, Unit testing with karma for angular.
- Desktop development with WPF and Winforms.
- Software development to integrate Sharepoint with APIs and .Net applications.

JOB EXPERIENCE

- | | |
|------------------------|--|
| (2005 – 2007) | Web Developer, <i>EBC Comunidades</i> <ul style="list-style-type: none">· Web developer. My main role was creating web forms to subscribe and desing web pages that list information. I worked ther with webforms and ASP.Net 2.0. |
| (2007 – 2008) | Web Developer, <i>Doble Click</i> <ul style="list-style-type: none">· Web application developer. May main role was create software transactional applications for cooperatives and restaurant business. I worked on ASP 3.0, ASP.Net 1.0, ASP.Net 1.1, and WebForms |
| (2008 – 2009) | Application Developer, <i>Sistemas POS</i> <ul style="list-style-type: none">· Application Developer. I worked there as a software engineer migrating a POS software from Desktop to web. I worked on Windows mobile 6.0, Windows Forms, WebForms and WebServices. |
| (2009 – 2011) | Software Developer, <i>Intergrupo</i> <ul style="list-style-type: none">· Application developer. development, Reporting, Integrations with ETL, among others for companies like EPM. Survey of the architecture of an application in .Net 2003 to .net 2008 with migrations of components com + and SOA with WCF NetTcp. I worked with oracle as a database. |
| (2011 – 2014) | Software Architect, <i>Contabilidad Inteligente SAS</i> <ul style="list-style-type: none">· Team leader and software architect. Also, my responsibilities creating and deploying software applications. The application was developed with Silverlight, C#, WCF, XAML and SQL Server 2008. Lead +5 persons in this team. |
| (2014 – 2018) | Software Architect, <i>INTAP</i> <ul style="list-style-type: none">· Team Leader and Software Architect. I worked ther creating diferent architectures from scrash. I worked on 4 mobile applications on Xamarin Forms, web Application with angularjs, Rest API's, Winforms, ASP.Net MVC, MongoDB, Odata for a university. One pick to light software with .Net core as a web configurator, and Windows Service as platform manager to conect to de controllers. Lead +10 persons on the team. |
| (2018 – 2022) | Tech Architect, <i>Mas Global</i> <ul style="list-style-type: none">· Work with 250 persons in small scrum teams to achive the business goals. Develop in .net and web technologies such as vanilla javascript, angular and react. In backend side, i work with .net core, MVC, .net standard, api development, and SQL Server. Lead +50 persons in diferent regions of the World (France, USA, China, India, Colombia, Argentina and Rusia). |
| (2022 – Actual) | Lead Developer, <i>Acklen Avenue</i> |

- Working with c#, .net, VB.net and angular to build a automation platform with a team of people. Working on github actions, AWS, and docker.

STUDIES

March 2011 Software Engineer, *Instituto Tecnológico Metropolitano*

Courses

- Business Intelligence with Microsoft SQL
- Software Development with Transact SQL
- Agile Transformation and Scaled Agile
- Angular 7 Jump start
- Design Patterns in C# and .NET

Certifications

- Microsoft Azure Architect Technologies
- Silverlight 4, Development
- .NET Framework 3.5, ADO.NET Applications
- Microsoft Windows® Mobile 5.0 Applications
- .NET Framework 3.5, ASP.NET Applications
- TS: Microsoft .NET Framework - Application Development Foundation
- TS: Developing Business Process and Integration Solutions using Microsoft® BizTalk® Server 2006.
- Microsoft Dynamics™ CRM 4.0 Customization and Configuration
- TOGAF 9.2
