### SUMMARY

Front-end developer with 7+ years of experience developing and building complex designs into optimized and high performance web applications. Proficient with javascript and javascript frameworks like **React & Angular**, with extensive knowledge of HTML, CSS, and passionate about contributing to a great collaborative work environment, finding solutions, and delivering exceptional customer experiences.

### WORK EXPERIENCE

#### SOFTWARE ENGINEER - Commure | August 2020 - January 2023

- Wrote structured, readable, and maintainable code for the web platform.
- Contributed to the Commure's UI library and created multiple reusable components.
- Participated in the recruiting process by conducting technical interviews along with other engineers.
- Created style guide for web applications (React & Angular).
- Improved the product quality through code reviews, writing unit tests, and collaborating with the QA team

**TECH STACK:** React, Typescript, Redux, Redux Toolkit, Jest, React Testing Library, Storybook, Rest APIs, GraphQL, Styled Components, CSS Modules, SASS, Git, GitHub, MUI, HTML5, CSS3, Angular.

#### SOFTWARE ENGINEER - Merlin Jobs | September 2018 - August 2020

- Promoted and participated in the migration of the company's main application from AngularJS to Angular.
- Worked closely with the product and design team from ideation to development of new features.
- Contributed on bug fixes, unit tests, and code reviews, to keep quality and reduce technical debt.
- Developed and implemented several web interfaces and complex layouts.
- Participated across multiple projects simultaneously.

**TECH STACK:** AngularJS, Angular, Typescript, Javascript, Jest, Jasmine, SASS, React, Redux, PWA, NgRx, HTML5, CSS3, NodeJS, Rest APIs, Git, GitHub.

#### SOFTWARE ENGINEER - Data CRM | February 2017 - May 2018

- Mentored 3 software engineers on the team on Javascript, CSS, and best practices styling web applications.
- Redesigned the existing website implementing responsive design and incorporated SEO techniques.
- Developed and shipped multiple new features for the core product (CRM).
- Participated in weekly code reviews with senior engineers to ensure code quality.
- Built 10+ landing pages to support email marketing campaigns and company promotions.

**TECH STACK:** PHP, Javascript, Wordpress, JQuery, HTML5, CSS3, MySQL, Git.
