### ABOUT ME

Solution-driven Front end developer adept at contributing to highly collaborative work environment, finding solutions and determining customer satisfaction. Proven experience developing consumer-focused websites using HTML, CSS, JavaScript, Angular and React. Built products for desktop and mobile app users over 6+ years, meeting highest standards for web design, user experience, best practices and speed. Designed and developed web applications across multiple APIs, third-party integrations and databases.

### WORK EXPERIENCE

30/10/2023 – CURRENT Porto, Portugal

#### SENIOR FRONTEND DEVELOPER NATIXIS AT HEXA

- Mentored junior developers, fostering professional growth and enhancing team productivity.
- Introduced automation tools for efficient deployment processes, minimizing downtime during updates.
- Optimized code performance for improved user experience and system efficiency.
- Contributed valuable input during project planning and design phases, resulting in a more efficient development process.
- Mentored junior developers by providing guidance on best practices and industry standards in front-end development.
- Established version control processes using Git to maintain clean codebases and facilitate efficient collaboration among team members.
- Developed reusable UI components using modern JavaScript frameworks like Angular 16, increasing productivity of the entire development team.

-Angular 16+, HTML, CSS, Rxjs, Jest, Scrum, Git, Bootstrap, JavaScript, Typescript, RESTful API

10/03/2022 – 26/09/2023 Ovar, Portugal

#### SENIOR FRONT END DEVELOPER BOSCH PORTUGAL

- Maintained website performance by conducting regular updates and addressing compatibility issues across various platforms.
  - Troubleshoot technical issues related to front end development, ensuring prompt resolution to maintain project timelines.
  - Utilized HTML, CSS, and Angular 12+ to create visually appealing and responsive web pages that met client requirements.
  - Mentored junior developers on best practices for front end development techniques, fostering a collaborative work environment within the team.
  - Lead of Front End team
  - Utilized version control systems such as Git to track changes throughout the development process. Implemented SEO strategies into front end development practices, improving search engine rankings for client websites.
  - Performed unit testing of web applications and troubleshoot issues.
  - Optimized web applications for speed, scalability and security.
- Angular 12+, TypeScript, Css, HMTL, JavaScript, Jira, Git, Scrum, Jenkins, Jasmine

06/06/2021 – 02/2022 Vila Nova de Gaia, Portugal
