

MAURICIO SALAZAR

FRONTEND DEVELOPER

WORK EXPERIENCE

Frontend Developer

MORNINGSTAR ADVISOR WORKSTATION (MAR 2021 - PRESENT)

- Developed, tested, and launched customized, responsive web solutions:
 - Built dynamic and user-friendly web interfaces using Vue.js and TypeScript, ensuring seamless user experiences across devices.
 - Implemented unit and integration tests to ensure the reliability and maintainability of code.
- Collaborated with cross-functional teams to meet client expectations and project deadlines:
 - Worked closely with product managers, designers, and backend developers to deliver features that align with client needs and business goals.
 - Conducted code reviews and provided constructive feedback to team members, fostering a culture of quality and collaboration.
- Utilized Vue.js and TypeScript to enhance user interfaces and improve performance:
 - Refactored legacy code to modern frameworks, improving maintainability and scalability.
 - Introduced best practices for state management and component architecture.
 - Integrated third-party libraries and APIs to extend application functionality and streamline workflows.

Frontend Developer

PEEWAH (OCT 2019 - 2021)

- Implemented a new promotional website for events:
 - Designed and developed a high-traffic promotional website using HTML, CSS, JavaScript, and Angular.js.
 - Ensured the site was visually appealing and easy to navigate, resulting in increased user engagement and conversion rates.
- Maintained an Angular.js application for event organizers:
 - Fixed bugs and performed regular updates to ensure the application remained stable and secure.
 - Implemented data visualization tools to help organizers track event metrics and performance.
- Maintained responsiveness:
 - Ensured all web solutions were fully responsive, providing optimal user experiences on desktops, tablets, and mobile devices.
 - Used media queries and modern CSS techniques to create flexible layouts and components.
 - Conducted regular testing across different browsers and devices to identify and fix responsiveness issues.

EDUCATION

- Bachelor of Business Administration, Corporacion universitaria empresarial alexander von humboldt.
Finance - Budgets - Human resource.
