June 25<sup>th</sup> 1988

Medellín, Colombia

## PROFESSIONAL PROFILE

- Full Stack Developer since 2013, with experience in design of web applications with responsive design, Web API, Web Services, desktop and mobile applications to iOS, Android and Windows Universal platforms.
- Extensive training in multiple frameworks and technologies such as: SOAP Services, REST API services, Entity Framework Core, .NET Core, Identity Server, Microservices Event-driven architecture, ASP & ASPX, MVC-Razor, HTML5, CSS3, JavaScript, Angular, React, Vue, databases management (SQL and NoSQL), creating an optimized/reusable code based on the most recent best practices and architectures.
- Certified in agile methodologies: SCRUM Master, SCRUM Product Owner, SCRUM Developer and SCRUMBAN, Team Lead experience, great details attention, and passion for my work.

## EDUCATION

- **Jan 2017 – Dec 2021**  
Software Engineer, U. Politécnico Grancolombiano.
- **Sep 2021**  
Agile certification, Global IT & International SCRUM Institute.
- **Jun 2018 – Jun 2019**  
English B1, American School Way.
- **Aug - Sep 2017**  
Professional course React.js, Platzi.
- **Feb - Mar 2017**  
Xamarin Certified, Microsoft®.
- **Aug - Nov 2012**  
Programming certified ADO and ASP .NET Microsoft® and Database management Microsoft SQL Server 2008R2®, Intecap.

## TECHNICAL SKILLS

### Integrated Development Environments:

- Microsoft Visual Studio®  
11 Years
- Microsoft Visual Studio Code®  
6 Years
- NetBeans 8.2 / Oracle®  
2 Years
- Eclipse  
1 Years

### Programming Languages:

- C#  
11 Years
- Visual Basic  
2 Years
- Java  
2 Years
- C++  
2 Years
- PHP  
3 Years
- Node Js  
3 Years

## PROFESSIONAL EXPERIENCE

**Dic 2022 – Current**

**Full-Stack Developer - Senior, Data Art**

Multinational Company in the technology industry. They connect professional people with clients from USA.

- **Virtuoso:** Working as Full-stack developer in a Web Portal for tourism to find hotels, tours, destinations and promotions. I'm in the support area fixing bugs in the current Web Portal and services.

Role tasks:

- Develop Sprint tasks.
- Work on support and new features for an ASPX application.
- Talk with client to attend the requirements in English
- Work on task related with the SQL Server Database.
- Attend meetings such as daily, planning, retrospective, refinement.
- Pull Request reviewing.

Technologies used: Angular, JavaScript, JQuery, HTML5, CSS, SCSS, Webpack, .NET 6, SQL Server database, REST API Microservices, Event-driven, Azure Devops, Azure Cloud, CI/CD, SCRUM Agile Methodology.

**Feb 2022 – Nov 2022**

**Full-Stack Developer - Senior, Yuxi Global**

Multinational Company in the technology industry. They connect professional people with clients from USA.

- **ARInsights:** Worked as Full-stack developer in a Web Portal that provides information from influencers in the technology industry to many companies and analysts in the same area. One of the most important achievements was being part of the improvement of the search engine on the system using a GraphQL database with Neo4j and populating data in a .NET Core Rest API.

Role tasks:

- Develop Sprint tasks.
- Work on support and new features for an ASPX application.
- Work on the migration of the site to an Angular application on the front end and .NET 6 Rest API on the back end.
- Talk with client to attend the requirements in English
- Work on task related with the SQL Server Database.
- Attend meetings such as daily, planning, retrospective, refinement.
- Propose a solution for the improvement of the Search Engine with Neo4j GraphQL database.

## TECHNICAL SKILLS

**.NET Technologies:**

- .NET Framework

- .NET Core

- Entity Framework/Core

- Razor

- ADO .NET / ASP .NET

- WCF

- Oauth 2.0

- JWT

- NuGet Package

**Containers**

- Docker

Medellín, Colombia

- Pull Request reviewing.
- Unit Testing with xUnit and React testing library.

Technologies used: Angular, Jest, Angular Testing, Angular Material UI, JavaScript, HTML5, CSS, SCSS, Webpack, .NET 6, SQL Server database, REST API Microservices, RabbitMQ, Event-driven, Identity Server 4, Jira, CI/CD, GitHub, Jenkins, Docker, SCRUM Agile Methodology.

- **McKesson:** Worked for one of the biggest care providers and pharmacies from USA. I was working in an e-commerce app to connect pharmacies in United States as a Full-stack developer .NET + React.  
.NET Core Rest API.

Role tasks:

- Develop Sprint tasks.
- Work on support and new features for an ASPX application.
- Work on the migration of the site to a React application on the front end and .NET Core Rest API on the back end.
- Talk with client to attend the requirements in English
- Work on task related with the SQL Server Database.

Attend meetings such as daily, planning, retrospective, refinement.

**Jan 2021 – Feb 2022**

## Full Stack Developer - Senior, Overactive

Multinational Company in the technology industry. They connect professional people with clients from USA.

- **XPO Logistics:** Worked as a Front-end developer in an Angular app for one of the biggest logistic companies in United States. I had to develop new features for a web app to trace resources for the vehicles and they trip.

Role tasks:

- Develop the sprint tasks
- Work with Angular 14.+ version
- Work with internal library of angular that contains the methods for REST API calls and the custom components to be implemented.
- Talk with client to attend the requirements in English.
- Attend meetings such as daily, planning, retrospective, refinement.
- Improve and suggest best practices to the frontend team.
- Pull Request reviewing.
- Unit Testing with Angular Testing.

Technologies used: Angular v14, Jest, Angular Testing Library, Angular Material UI, JavaScript, HTML5, CSS, SCSS, Webpack, Jira, CI/CD, GitHub, SCRUM Agile Methodology.

## TECHNICAL SKILLS

### Front End:

#### ● HTML5

6 Years

#### ● CSS, SCSS, SASS

6 Years

#### ● JavaScript

6 Years

#### ● JQuery

2 Years

#### ● Angular Js

6 Years

#### ● React Js

6 Years

#### ● Vue Js

1 Year

#### ● JSON

6 Years

#### ● Webpack

5 Years

#### ● NPM

5 Years

#### ● YARN

3 Years

- **Quantum Material Corps:** Worked as a Front-end lead for a Web Portal for management of the test kit devices for Covid-19 made on React v16. I had to create the best practices documentation and validate all PRs with the implementation of new features.

#### Role tasks:

- Develop the sprint tasks as developer.
- Work with React 16 version.
- Talk with client to attend the requirements in English.
- Attend meetings such as daily, planning, retrospective, refinement.
- Improve and suggest best practices to the frontend team.
- Pull Request reviewing.

Technologies used: React v16, Jest, React Testing Library, React Material UI, JavaScript, HTML5, CSS, SCSS, Webpack, Auth0 authentication, Jira, CI/DI, Bitbucket, SCRUM Agile Methodology.

## Jun 2019 – Jun 2021

### Full Stack Developer – Mentor/Teacher, Acámica (Digital House)

Latin America academy for courses in the most relevant areas in the technology industry. I worked as a mentor/teacher for a couple of courses, leading the students to get their certification as developers. The methodology for these courses are very similar to the environment of the normal company, and my role was teaching all topics to create and improve the skills as a Web Developer.

These are the courses that I led:

- **Full-stack developer**

Technologies used: JavaScript, HTML5, CSS, Node Js, Express, NPM, My SQL, Maria DB, Mongo DB, Visual Studio Code, GitHub, SCRUM Agile Methodology.

- **Front-end developer**

Technologies used: JavaScript, HTML5, CSS, Visual Studio Code, GitHub, SCRUM Agile Methodology.

- **React developer advance**

- Technologies used: React, JavaScript, HTML5, CSS, NPM, Visual Studio Code, GitHub, SCRUM Agile Methodology.

- **Back-end developer**

Technologies used: JavaScript, Node Js, Express, NPM, My SQL, Maria DB, Mongo DB, Visual Studio Code, GitHub, SCRUM Agile Methodology.

## TECHNICAL SKILLS

### Mobile Programming:

- Xamarin Studio ©

- Android Studio ©

### Databases:

- SQL Server

- MySQL

- Mongo DB

### Other Technical Skills:

- SCRUM/KANBAN

- Software Pattern Design

- S.O.L.I.D.

- Version Control – CI/DI

- Unit Testing (xUnit, Jest, RTL, Enzyme)

**Jan 2018 – Jan 2021**

## **.NET Developer – Semi Senior Advance, Globant**

Multinational Company in the technology industry. They connect professional people with clients from USA.

- **DirectVGo:** Worked as a Backend Developer, to develop new features on a REST API service made in .NET Core 2.0 with proxy architecture.

### Role tasks:

- Develop Sprint tasks.
- Work on support and new features for a .NET core 2.0 REST API.
- Talk with client to attend the requirements in English
- Work on task related with the SQL Server Database.
- Attend meetings such as daily, planning, retrospective, refinement.
- Pull Request reviewing.

Technologies used: .NET Core 2.0, SQL Server database, REST API Microservices, Jira, CI/CD, Bitbucket, Jenkins, Docker, SCRUM Agile Methodology.

- I worked in a project for a client in USA from Trade Market sector, as a Full Stack Developer to work in a web application made in Vue JS and the backend services with .NET Core 3.0 and Unit Testing with xUnit.

### Role tasks:

- Develop Sprint tasks.
- Work on support and new features for a .NET core 3.0 REST API on the back-end and Vue Js on the front-end.
- Talk with client to attend the requirements in English
- Work on task related with the SQL Server Database.
- Attend meetings such as daily, planning, retrospective, refinement.
- Pull Request reviewing.
- Unit Testing with xUnit.

Technologies used: Vue Js, JavaScript, HTML5, CSS, SCSS, Webpack, .NET Core 3.0, SQL Server database, REST API Microservices, Jira, Jira Test Cases Testing, CI/CD, GitLab, Jenkins, Docker, SCRUM Agile Methodology.

- **GloberTrotters:** Also, I worked on an internal project for an application as a Full-stack Developer Leader, that connects Globant employees to host job mates in their houses as well as to find a host in all countries where Globant is present. That application was developed in Angular with the back-end on .NET core 3.0 with an authenticator made on Identity Server 4.

### Role tasks:

- Develop Sprint tasks.
- Create all tasks in the backlog

- Work on support and new features for a .NET core 3.0 REST API on the back-end and Angular on the front-end.
- Create and design the database on SQL Server.
- Attend meetings such as daily, planning, retrospective, refinement.
- Pull Request reviewing.

Technologies used: Angular, JavaScript, HTML5, CSS, SCSS, Webpack, .NET Core 3.0, SQL Server database, REST API Microservices, Jira, Jira Test Cases Testing, CI/CD, GitLab, Jenkins, Docker, SCRUM Agile Methodology.

## Sep 2017 – Jan 2018

### Software Engineer, Intercom.

I worked as a full-stack developer, designing projects for local clients like Colpatria bank, Mulribank, Finandina. I developed Web Application, REST services, Mobile apps.

#### Role tasks:

- Develop the sprint tasks
- Technical tasks designer
- Sales
- Technical architecture designer
- Talk with client to attend the requirements
- Attend meetings such as daily, planning, retrospective, refinement.
- Suggest improvements to do within the projects of the company

Technologies used: .NET Framework, .NET Core 2.0, REST API, ASP MVC, Razor, HTML5, JavaScript, jQuery, Angular, React, CSS, LESS, SCSS, Bootstrap, Xamarin, Xamarin Forms, SQL Server, GitHub.

## Apr 2017 – Sep 2017

### Technology Professional, Bavaria

I worked as a developer, designing a control system of ground transportation logistics planning on ASP .NET, with domain model architecture. Also, I worked in the support area of the Technology Department. SQL Server and MySQL databases management. Development engineer in the IT area.

#### Role tasks:

- Develop a web application with .NET Framework MVC using Razor.
- Technical architecture designer.
- Attend meetings such as daily, planning, retrospective, refinement.
- Suggest improvements to do within the projects of the company

Technologies used: .NET Framework 4.6, ASP MVC, Razor, HTML5, JavaScript, jQuery, CSS, LESS, SCSS, Bootstrap, SQL Server, Dapper, GitHub.
