

JHONER ESTEBAN SILVA

System and Computer Engineer.

Phone: +573113399163

Email: jhonerestebans@outlook.com

SUMMARY

Experienced full stack developer adept in a diverse array of programming languages and tools. proficient in both backend and frontend development, seamlessly managing all stages of the process. a collaborative team player with exceptional technical prowess, backed by 6 years of hands-on experience.

SKILLS

- Git
- Docker
- .NET Core
- .NET
- .NET Framework
- Azure
- MySQL
- Azure Data Factory
- ASP.NET
- Azure Functions
- Angular
- Azure SQL

EXPERIENCE

January 2024 - Currently

Software Engineer
Fusion Hit

Tasks Performed:

- Utilized Azure DevOps for continuous integration and deployment, streamlining software delivery processes.
- Implemented unit testing for Angular and .NET applications, ensuring code quality and reliability.
- Developed containerized applications using Docker and managed them through Azure Container Registry (ACR), enhancing deployment efficiency.
- Configured and managed build and release pipelines in Azure DevOps, facilitating smooth and automated software releases.
- Deployed and managed applications on Kubernetes, ensuring high availability and scalability.

- Conducted thorough code reviews, ensuring adherence to best practices and optimizing code maintainability.
- Created and maintained technical documentation, ensuring clear communication of design and functionality.
- Provided mentorship and guidance to junior developers, fostering a collaborative and knowledge-sharing environment.
- Collaborated with cross-functional teams to deliver high-quality software solutions, ensuring seamless project execution.

Tools: .NET, Angular, Azure DevOps, Docker, Azure Container Registry (ACR), Kubernetes, Git.

Apr 2023 - Nov 2023 Senior .NET Software Developer
VATES INC

Task Performed:

- Designed intuitive graphical user interfaces to enhance user experience, accomplishing improved usability and engagement.
- Conducted thorough discussions with team members to address issues, implement best practices, and ensure seamless collaboration.
- Developed cutting-edge systems tailored to meet user needs, resulting in heightened productivity and user satisfaction.
- Employed Scrum methodology to estimate work hours and meticulously track progress, ensuring timely and efficient project completion.
- Corrected, modified, and upgraded software to optimize performance, achieving enhanced system functionality and efficiency.
- Actively contributed innovative ideas and suggestions in team meetings, providing valuable insights into project deadlines, designs, and enhancements.
- Generated proofs of concept for groundbreaking solutions, driving the development of forward-thinking technologies and applications.

Tools: Azure, .Net Core, Blazor, Git, CSS.

Feb 2022 - Mar 2023 .NET Backend Developer
TEAM International Tasks

performed:

- Developed and implemented REST-based web services in .NET Core, showcasing a strong understanding of scalability and high-performance design principles.

- Successfully integrated SQL databases, addressing scalability concerns and improving overall system efficiency.
- Played a key role in architecting and designing large-scale systems, ensuring optimal performance with low latency and high throughput.
- Actively contributed to the DevOps and CI/CD pipeline using Azure DevOps, enhancing the overall development process.
- Demonstrated expertise in Git branching strategies, ensuring effective source control management.
- Proactively explored and implemented new technologies to stay ahead in the dynamic development landscape.

Tools: MS SQL Server, .NET Core, Azure Data Factory, Azure Functions, Azure DevOps, Git, Jira.

Jun 2021 - Feb 2022

.NET Software Developer, Full Stack
MAS Global Consulting

Tasks performed:

- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
- Developed unit test cases for testing and automation.
- Reviewed code, debugged problems and corrected issues.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.
- Worked with back-end developers to design APIs.

Tools: TFS, Azure DevOps, Scrum, MS SQL Server, Angular, .NET Core, Unit Testing.

Aug 2019 - Jun 2021

.NET Software Developer, Full Stack
Yuxi Global

Tasks performed:

- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.

- Consulted with engineering team members to determine system loads and develop improvement plans.
- Reviewed code, debugged problems and corrected issues.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.
- Analyzed existing software implementations to identify areas requiring improvement.

Tools: Jenkins, Angular, Angular JS, .Net Framework, .Net Core, Git, Jira.

Nov 2017 - Aug 2019 Software Engineer Developer
SUMSET S.A.S

Tasks performed:

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability and performance.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Analyzed proposed technical solutions based on customer requirements.
- Integrated third-party tools and components into applications.

Tools: .Net Framework, Git, IIS, WCF, HTML, MVC 5, CSS, jQuery, Scrum.

EDUCATION

Feb 2018 - Nov 2019: Bachelor of Arts: Foreign Languages Education
University of Quindío

Aug 2011- Nov 2017: Bachelor of Science: System and Computer Engineering
University of Quindío.
