<https://linkedin.com/in/diego.remicio>

Full Stack Developer with 7+ years of experience developing web applications using **Angular** and **Node.js with Express**. I consider myself a team player and a problem solver, and I'm always ready to learn new technologies and deepen my knowledge of what I already know. Aiming to contribute to building first-class software applying good practices. I envision myself being a technical referent on my team and cooperating on achieving the organization's goals.

EXPERIENCE

Taller Technologies, Senior Front End Developer — Lima, Peru. April 2023 – Present
