### **Current Address**

Calle 11 C # 73 # 82 T2 APTO 903  
Bogotá, Colombia (110821)

### **EDUCATION**

ECCI University – Bogotá, Colombia  
Duration: 2 Semesters

Wireless Telecommunications Specialization  
March 2016

ECCI University – Bogotá, Colombia  
Duration: 10 Semesters

Electronic Engineering  
May 2015

### **RELATED COURSES**

- Seminar in Computer Vision
- Secure Programming Techniques
- Variables and Control Structures in OOP with JAVA
- Oracle ASAP & OSM Frameworks
- Software Development Process
- Design Patterns in Java
- OWASP Top 10
- AWS Developer

### **RELEVANT EXPERIENCE**

**NVC (Revalize - Remote) - Bogotá, Colombia**  
**Senior Software Engineer**

**April 2022- Present**

- Development Applications using Java and Spring Framework.
- Development Applications with DGS GraphQL framework.
- Development project using Scrum/Kanban.
- Development of services that running over platform containers in Kubernetes on cloud Azure.
- Development features and maintenance of applications that are allowed in Azure - Kubernetes.

**Bring Global (BackBase - Remote) - Bogotá, Colombia**  
**Back-end Senior Consultant**

**Nov 2020- April 2022**

- Leadership tasks and soft skills.
- Development Applications using Java and Spring Framework.
- Development Web Services (Microservices) Applications with Spring Boot.
- Development project using Scrum/Kanban.
- Development of services that running over platform containers in AWS.
- Development and maintenance of applications that are allowed in AWS - K8S for AWS.
- Using Docker containers, Kubernetes.

**Globant (Disney/ESPN/RCCL Projects) - Bogotá, Colombia**  
**Senior Java Developer**

**August 2017- Sept 2020**

- Leadership tasks and soft skills.
- Development Applications using Spring Framework, with TDD and agile methodologies like Scrum / Kanban.
- Development Web Services (Microservices) Applications with Spring Boot, and Reactive Java.
- Handling queues (JMS) and messages for the interaction over the Kafka topics.
- Development of services that running over platform containers in AWS.
- Development and maintenance of applications that are allowed in AWS - Spring Cloud for AWS.
- Using Docker containers.

**Periferia I.T. (Nova Southeastern University - Remote) – Bogotá, Colombia**

**Senior Java Developer**

**July 2016 - August 2017**

- Product Development and Applications using design patterns and agile methodologies like SCRUM.
- Development and maintenance of Web Apps using Spring Framework and Java EE, both in Development and Testing Environment.
- Development of Portlets using Life Ray Framework and Ellucian Portal as a container Web.
- Development of Web Services - Apps using spring (Spring-MVC) and Spring Cloud.

**Ritbox (Banco de Bogota Project on client-side) – Bogotá, Colombia**

**Software Developer**

**July 2014 - July 2016**

- Product Development and Applications for Banking based in design patterns and agile frameworks like SCRUM.
- Deployment and Maintenance of Web Apps in JAVA EE, both in Development and Testing Environments.
- Database Administration, creation and modification of Queries (JPA, EJB).
- Learned about Development of Mobile Applications in Android.
- Management of Subversion Repository.
- Team working skills.

**Glokal Consulting – Bogotá, Colombia**

**Software Developer**

**September 2013 – April 2014**

- Deployment and Maintenance of Front and Back Applications.
- Created proposal for different types of Website building.

**Processa S.A.S – Bogotá, Colombia**

**Software Developer**

**May 2012 – June 2013**

- Deployment and Maintenance of Terminals (ATM – Pin pads integrated) Applications with Java and C++.

**SKILLS**

---

- Programming Experience: C, C++, Java, Java EE (JPA, EJB), JSF, Junit, Spring (Spring-MVC, Spring Boot, Spring Cloud, Spring Security, Spring Data, Spring Reactor), Reactive Java SVN, Git, JAX-RS, Webservices, SOAP, RESTful, XML, UML, Web Development (JavaScript- jQuery, CSS, HTML), Mobile Development (Android, PhoneGap Framework), Life Ray Framework, Portlets, Microservices, OpenAPI, Swagger, Maven, Gradle, Kafka, Docker, Kubernetes, AWS, GraphQL, Azure, Chatbot (GCP toolkit - Dialog Flow).
- Languages: Spanish (native), English (Professional working proficiency).
- S.O. Knowledge: Windows, Linux, UNIX.
- IDE's: Visual Studio, NetBeans, JDeveloper, Eclipse, IntelliJ IDEA.
- Source code collaboration tools: TFS, Subversion, GitHub, GitLab, Bitbucket.
- Lightweight Desktop Editor: Notepad ++, Sublime Text.
- Issue Trackers and Management Tools (Documentation, Team Communication): Jira, Trello, Confluence, Slack.
- Continuous Integration or Continuous Delivery tool: Jenkins, Team City, Bamboo.
- Code Review Tool: Crucible, UpSource.
- Database Systems Relational and Non-Relational: Oracle, MySQL, PostgreSQL, SQLServer, MariaDB, Mongo, Couchbase, Redis, Cassandra.
- Driven Development/Design: TDD, Domain-Driven Design (DDD).
- Static analysis tool: Code Climate, SonarQube, Codebeat.
- Application Servers and Containers tools: WebLogic, Tomcat, JBoss, Glassfish, Docker, Kubernetes.
- Writing Skills: Ability to document and generate reports efficiently.
- Leadership Skills: Technical Design, Planning, Process Related, Reporting, Escalating, Motivating, Communicating, Wellness, Training & Mentoring, Coaching, Managing, Maintaining.
