- JavaScript
- TypeScript
- Redux (Thunks, Sagas)
- OneSignal
- RTK
- GraphQL
- Next
- Firebase
- Instabug
- MixPanel
- Zustand
- Git
- Bootstrap
- Tailwind

## PROJECTS

Position: React Native Developer - Applaudo Studios (2019-2020)

### Keller Williams

- Collaborated in project creation.
- Created new functionalities.
- Provided support and resolved bugs.
- Assisted in creating animations.
- Helped in establishing the project's structure.

React Native - Redux - JavaScript - Sentry - Analytics - Reanimated

Position: React Native Developer - Sweatworks (2021-2022)

### CityRow

- Developed new functionalities.
- Resolved critical bugs.
- Collaborated to improve the performance of the application.
- Provided general maintenance to the application.

React Native - Redux - Firebase - MUX - Instabug - Sentry - JavaScript - Stripe.

Position: React Native Developer - Freelance (2019-2022)

### Paque App

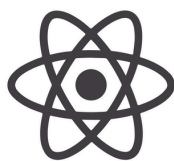

- Developed new functionalities.
- Provided support and bug resolution.
- Assisted in improving the application's performance.
- Provided documentation for general app improvement.
- Helped in creating the project's structure.

React Native - TypeScript - Analytics - Crashlytics - Zustand - SERFINSA

Position: React Developer - Freelance (2022)

### ARC

React JS

- Created new functionalities.
- Assisted the team in delivering functionalities within critical timelines.
- Integrated web services.

React JS - TypeScript - Next.js - GraphQL - SASS

## PROJECTS

Position: React Native Developer - Freelance (2020)

### Superea

- Collaborated in project creation.
- Created new functionalities.
- Provided support and resolved bugs.
- Assisted in creating animations.
- Helped in establishing the project's structure.

React Native - Redux - JavaScript - Firebase - TypeScript - Reanimated

Position: React Native Developer - Freelance (2019-2020)

### Moka App

- Resolved critical bugs in short time.
- Collaborated to improve the performance of the application.

React Native - Redux - Firebase - Stripe - JavaScript.

Position: React Native Developer - Freelance (2019-2020)

### Redy

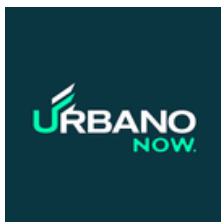

- Developed new functionalities.
- Provided support and bug resolution.
- Assisted in creating animations.
- Provided documentation for general app improvement.
- Helped in creating the project's structure.

React Native - TypeScript - Analytics - Crashlytics - Redux - Firebase - Reanimated

Position: React Native Developer - Freelance (2021)

### Urbano Now

- Created new functionalities.
- Assisted the team in delivering functionalities within critical timelines.
- Integrated web services.

React Native - Javascript - Notify - Firebase - Redux
