Italian

### SUMMARY

As a Front-End Developer proficient in Angular, Ionic, Flutter, and React, my pursuit of a Master's in ICT for Internet and Multimedia, with a specialization in Cyber Systems, is a testament to my commitment to advancing in the tech industry. My professional ethos is deeply influenced by the collaborative spirit and resilience instilled in me from growing up in a large family. This background has honed my ability to work effectively in team settings, proactively respond to challenges, and support colleagues towards achieving collective goals. It's this fusion of technical skill, lifelong learning, and a team-oriented approach that defines my unique contribution to the field, driving me to excel in innovative projects and contribute to the broader tech community

### WORK EXPERIENCE

#### Digital Forest

2022–Present

##### Front-End Developer

- Facilitated the setup and maintenance of an Angular-based admin panel pivotal for configuring event-related functionalities such as live streaming, surveys, quiz and etc within our platform.
- Collaborated closely with the development team to seamlessly integrate the admin panel with our Angular-based platform, ensuring a cohesive user experience.
- Contributed significantly to enhancing the platform's versatility in handling diverse events, resulting in heightened user engagement and interaction.

#### Sophron Engineering

2020-2022

##### Front-End Developer

- Developed and maintained web and mobile applications, utilizing Angular for frontend development and Ionic for cross-platform mobile development.
- Collaborated with a team of developers to implement new features and enhance the user experience of existing applications.
- Contributed to the successful deployment of [X number] applications, resulting in improved user engagement and satisfaction.

#### Dance-Match

2020-2020

##### Mobile Front-End Developer

- Created multi-platform applications for iOS and Android using Google's Flutter development framework.
- Implemented new app modules and features based on product requirements, resulting in enhanced user functionality and satisfaction.

#### Ufind

2018-2020

##### Web and Mobile Front-End Developer

- Developed and maintained the admin panel using Angular framework, serving as a configurator for the mobile application.
- Contributed to the creation and enhancement of the Ufind Mobile Application, utilizing Ionic framework for cross-platform development.
- Collaborated closely with design and backend teams to ensure seamless integration of frontend components and optimal user experience.

#### Witchery

##### Front-End Developer

2018-2020

- Contributed to the development and implementation of web and mobile applications using Angular and Ionic frameworks.
- Collaborated with designers and backend developers to translate project requirements into functional and visually appealing user interfaces.
- Assisted in troubleshooting and debugging issues to ensure the smooth functioning of applications across various platforms and devices.

### Personal Project Experience

Alongside my studies, I've engaged in projects focusing on travel and event management apps, as well as the cryptocurrency market. Originating from both academic assignments and personal interests, these experiences demonstrate my proficiency with innovative technologies and my enthusiasm for personal development and improving my skills.
