Heider Llantén

28 years old
Cr 19 Cl 10N – 43, Badajoz
Armenia, Colombia
Phone Number : 3128696231
Email : heiderllantenv@gmail.com

Software Engineer with over 7+ years of experience in designing, developing, and maintaining robust software solutions. Proficient in .NET Framework, .NET Core, and Angular, with a strong track record of delivering high-quality, scalable applications. Skilled in full-stack development, agile methodologies, and problem-solving. Passionate about staying up-to-date with the latest technologies and continuously improving development processes. Successfully participated in the migration of legacy .NET applications to modern .NET Core architecture, resulting in improved performance, scalability, and maintainability.

DEGREES

2012 *Armenia Q.*	**Bachiller académico con énfasis en Sistemas e Informática.** Institución educativa C.A.S.D.
2012 *Armenia Q.*	**Técnico en Programación de Software.** Servicio Nacional de Aprendizaje SENA,
2017 *Armenia Q.*	**Ingeniero de Software** E.A.M.
Languages :	**Spanish :** Native **English :** Upper Intermediate

WORK EXPERIENCE

June 2017 – March 2020   **Yuxi Global**

Armenia, Colombia   **Full Stack Developer**

Tasks developed:

- Designed and developed web applications using .NET Framework and AngularJS.
- Implemented frontend and backend features, ensuring high performance and usability.
- Explore new technologies such as .NET Core and AHWS to become familiar with them and take advantage of their benefits.
- Provide proactive troubleshooting support for existing applications.
- Create and maintain queries for SQL Server databases to increase query efficiency.
- Collaborated with cross-functional teams to define requirements, plan sprints, and deliver solutions on time.
- Conducted code reviews, identified areas for optimization, and maintained code quality standards.
- Design and develop reusable unit tests for .NET Framework micro-services to ensure quality control and detect bugs.

March 2020 – March 2021   **Globant**

Medellín, Colombia   <u>**Full Stack Developer**</u>
                       Tasks developed:

- Designed and implemented Web API's using .NET Framework.
- Provide new features and proactive troubleshooting support for existing ReactJs and .NET Framework applications.
- Create and maintain queries for SQL Server databases to increase query efficiency.
- Design and develop reusable unit tests for .NET Framework micro-services to ensure quality control and detect bugs.

March 2021 – Actual   **Growth Acceleration Partners**

Armenia, Colombia   <u>**Full Stack Developer**</u>
                       Tasks developed:

- Designed and developed scalable web applications using .NET technologies and Angular framework.
- Implemented frontend and backend features, ensuring high performance and usability.
- Integrate DevOps tools such as Azure DevOps, creating build and release pipelines to ensure CD and CI.
- Provide proactive troubleshooting support for existing Angular, .NET Framework, and .NET Core applications.
- Upgrade micro-services from the .NET Framework to .NET Core, .NET 6, and .NET 8 to increase performance, efficiency, and maintainability.
- Create and maintain queries for SQL Server databases to increase query efficiency.
- Collaborated with cross-functional teams to define requirements, plan sprints, and deliver solutions on time.
- Conducted code reviews, identified areas for optimization, and maintained code quality standards.
- Design and develop reusable unit tests for .NET Framework micro-services to ensure quality control and detect bugs.

KNOWN TECHNOLOGIES

Especialities :

- .Net Framework / .Net Core
- Angular / AngularJS
- MS SQL Server / MySQL
- Web API's
- C# / Typescript / HTML,
- Microsoft Azure DevOps.

Other Skills :

- ReactJS
- Agile
