Summary

A geek, passionate about my work, friendly and with the super power of tech leadership and fast learning with extensive experience on many IT fields, with most interest on tech leadership and senior positions using Javascript (vanilla and/or frameworks, Node, React, Next, Apollo etc) and GraphQL API.

Currently working for Paramount as an Engineering Lead and leading a team of 14+ people in a huge project for a fortune 100 company.

Past highlights includes receiving in San Francisco an Engineering Emmy Award in 2020 for Evercast, a project that I've built from scratch 100% remotely, and founding two startups.

Specialities: Senior Leadership, Tech Leadership, Javascript (React, Relay, GraphQL, NodeJS, Next, Nest, Apollo, +) SQL databases, Linux Systems, GraphQL, Python, MEAN stack, Devops (Terraform, cloud systems) and more.

Experience

Senior Full-Stack Developer / Tech Lead
Clevertech
Sep 2015 - Present (6 years 6 months +)
Currently working as a Senior Engineering Lead for a Fortune 100 26 billion-dollar worth company that is the leader in the TV industry. Details of the project is under NDA.

Previous projects:

- Led a project for 5 years from start to finish, which is generating millions of dollars in revenue monthly right now -- and we also won an Engineering Emmy Award in 2020 due to how impactful the product has been for the movie industry. Users includes Apple, Paramount, Disney, Sony, Marvel, and other giants in the movie-industry.
- Worked as a senior front-end developer using EmberJS to support the development of a huge application used by the top model agencies companies worldwide .

Founder
Lupyx Solutions
Jun 2015 - Present (6 years 9 months +)

Senior Full-Stack Developer
OSF Digital
Feb 2015 - Sep 2015 (8 months)

Working for Hyatt Hotels Corporation, built an entire application used to manage the construction of the Hyatt Hotels all over the globe, which is still being used as of 2022.
