LUCAS TRENTIN

Florianópolis, Santa Catarina, **Brazil | +55 (54) 98449-0311 | lucasfragatrentin@gmail.com** | **LinkedIn** | **GitHub**

Portuguese: Native
English: Full professional proficiency

Technologist in **Systems Analysis and Development** - University of Caxias do Sul (UCS), Caxias do Sul, Brazil (2020-2025)

Full Stack Developer with 7 years of experience in software development, specializing in building scalable, high-performance web applications.
I have expertise in **TypeScript, JavaScript, Node.js**, and **Java** on the backend, with a strong track record of consistent and successful deliveries. My approach is results-driven: I develop efficient, well-documented, and thoroughly tested solutions, always aimed at creating real value.
I possess extensive experience in performance optimization, continuous integration, and building responsive and scalable interfaces. I'm ready to contribute to projects in any industry, with a commitment to technical excellence and scalability.

Technical Skills: Angular, React.js, Node.js, TypeScript, Service Worker, IndexedDB, GraphQL, PWA Development, Bootstrap, Git, AWS, HTML5, CSS3, SCSS
Tools: Visual Studio Code, GitHub, Postman, Figma, Sentry

EXPERIENCE

Senior Frontend Developer & Tech Lead
Quasar Tecnologia e Gestão | 09/2024 – present
Responsible for evolving a government fiscalization application. Specialized in frontend componentization and web service creation, as well as backend development of new endpoints and microservices. Improved usability through the creation of user-friendly components and delivered client solutions.

Frontend: JavaScript, Angular Material, Angular 17+, HTML/CSS, Service Worker
Backend: Java, Node.js, GraphQL
Database: MySQL
Design Tools: Figma
Other Technologies: GIT, Bitbucket, AWS

Frontend Developer
SoftExpert | 08/2024 – 11/2024
Multicultural global performance communicating in English.
I provided consulting services for software development for SoftExpert, where I was responsible for updating the design technology of legacy software, developed in older versions of ReactJs, to newer versions. I also implemented new screens and functionalities.

Frontend: JavaScript, ReactJs, Reactor, HTML/CSS, SASS
Design Tools: Figma
Other Technologies: GIT, AWS, Jenkins, GitLab, DataDog, SVG

Frontend & Mobile Developer
Cyncly | 12/2020 – 08/2024
Multicultural global performance communicating in English.
Responsible for evolving a global end-to-end design software solution, focusing on developing the web portal for clients and contributing to the mobile app development. Specialized in front-end componentization and web service creation, enhancing usability with user-friendly components and delivering tailored client solutions. Strong team collaboration and leadership skills, driven by challenges, and committed to continuous learning.

- Developed and maintained web portals with a focus on usability and performance
- Assisted in the development of mobile applications to complement web solutions
- Specialized in creating reusable components to improve development efficiency
- Demonstrated strong leadership and teamwork in agile environments

Frontend: JavaScript, Angular, HTML/CSS, SASS
Backend: Java, AWS, C#
Design Tools: Figma
Mobile Development: Genexus

Full Stack Developer & Tech Lead
Kingdom Agency | 01/2020 – 01/2023
Multicultural global performance (USA, Italy, Brazil) communicating in English.
Worked providing consulting services for software development to different companies and market sectors. I was responsible for developing web pages, payment integrations, and digital scalability solutions for clients. Additionally, I contributed to implementing PIX in mobile apps and actively participated in building data analysis dashboards.

Frontend: JavaScript, React.js, Angular 12+, HTML/CSS, Tailwind, Angular Material
Backend: Node.js, GraphQL
Design Tools: Figma
Mobile: React Native, Angular PWA
Other Technologies: Git

Frontend & Mobile Developer
LDN Software | 12/2019 – 03/2021

Worked developing software for Placas Web, where I was responsible for the front end and participated in the development of desktop and mobile applications.

Frontend: JavaScript, Angular, HTML/CSS
DevOps: Jenkins
Backend: C#, .NET
Mobile: C#, .NET
Other Technologies: Git

Frontend Developer
Yellow Brasil Digital | 01/2018 – 12/2019

I provided consulting services for software development for the Bancorbrás tourism club. I was responsible for leading the front-end chapter and proposing new standards for both new and legacy software.

Frontend: JavaScript, Angular, React.js, HTML/CSS, SASS, Vue.js
Design Tools: Adobe Package, Figma
Mobile: Angular PWA, WordPress
Other Technologies: Git, WordPress

COURSES AND CERTIFICATIONS

desenvolvedor.io
- Advanced Angular Development
- Angular Expert Frontend Training
- DevOps Training for Developers
- Docker from Zero to Advanced
- Git and GitHub from Zero to Advanced
- Introduction to DevOps
- Mastering Kubernetes
- SPA Development with Angular
- C# Fundamentals
- Software Architect Formation

Udemy
- Angular – The Complete Guide (2024 Edition)
- Complete C#: Object-Oriented Programming + Projects
- UX for Those (Still) Outside UX

Escola Conquer
- Leadership Training
