Manresa, Barcelona, Spain 📍

As a **passionate** and creative front-end developer with **8 years** of experience building and updating web apps and websites, I am proficient in **HTML, CSS, JavaScript (ES6), Node** and modern frameworks like **Vue** and **React**. With a proven track record of delivering exceptional results, I am a collaborative team player who stays current with the latest trends and technologies in the Front End Universe.

Work Experience

Lead Front End Developer

May 2017 - Present

#JSON #JavaScript(ES6) #RESTAPI #Vue(2 years) #Git #Linux #Jira #AWS #React(2 years) #Algolia #tailwindCSS #Nuxt #Meteor #MongoDB #Node #SEO #Vuex/Redux #TypeScript #Blaze #Next

STREAM HATCHET (Streaming analytics)

- Mentored and managed a team of up to 5 front-end engineers, fostering a collaborative and supportive environment that allowed team members to grow their skills and deliver high-quality work.
- Led the development of the Stream Hatchet analytics app from its inception in 2017, working closely with designers, back-end engineers, and other stakeholders to deliver a seamless user experience and robust functionality.
- Designed and implemented data visualization features, including complex tables, charts, infographics, and lists, that effectively communicated insights to customers and stakeholders while maintaining a clean and intuitive interface.

Front End Developer

Sep 2015 - May 2017

#SCRUM #Jquery #Newsletters #AJAX #Windows #LESS #PSD #Webpack #HTML5 #CSS3 #JavaScript #PHP #Layout #Crossbrowsing #MobileFirst

HOTUSA | EUROSTARS HOTELS (International hotel chain)

- Developed and implemented successful landing website campaigns.
- Designed and maintained templates utilized by individual hotels across the globe.
- Upgraded and maintained an internal booking app using Angular 1.0, resulting in increased efficiency and user satisfaction.
- Created visually appealing and error-free newsletters that were optimized for cross-browser and cross-device compatibility.

Junior Web Developer

Nov 2014 - Sep 2015

#Bootstrap #SASS #Angular1 #MongoDB #Express

CÁTEDRA UNESCO

- Upgrade of the company website from WordPress to a website built using the MEAN Stack (MongoDB, Express, Angular, and Node.js).
- Implemented Bootstrap for CSS styling, resulting in a responsive and visually appealing website that provided an enhanced user experience.
